

Description:
10PCS Audio Transformers EI14 Isolation Transformer

Specification:

Material: Nickel alloy

Color: Red

Model: EI14

AC impedance : EI14 600 : 600 Ohm

Item : Audio transformer

inductance : 290mH ($\pm 20\%$)

DC resistance : 135($\pm\%$)

Windability : Double-wire winding

Quality & wire diameter : QA-1 0.06MM

Primary coils : 800 turns

secondary coils : 800 turns

Alternating-current impedance value : 600

Features:

1. Make of Nickel alloy material, solid and Safety, easy to install.
2. EMC, EMI, high pressure, stable performance, High efficiency transformer.

Package Included:

10×Audio Transformers
